About us

At ANC, We Take Pride in Being One of Saudi Arabia's Leading Companies in Fire Protection & Safety Projects. Since 2013, When We Launched Our Factory in Riyadh for Fire Pumps Production, We Have Set a Trademark in Quality & Innovation. Within Just Three Years, Our Brand (ANC) Was Firmly Established. We then Earned the Saudi Quality Mark, Followed by International Accreditations Including UL, FM, & ISO Certifications. Today, ANC Continues to Grow with a Strong Vision to Expand Across the Region and Beyond, Delivering Reliable Solutions that Protect Lives & Properties.

Fire Protection
Systems & Projects

Scope of Work

Design & Consultancy

Designs & Approves
Fire Protection Systems
Engineering Drawings

Manufacturing & Testing

We manufacture and test fire
pumps & fire pump systems
with the updated local &
international standards using
modern tools & equipment.

Fire Protection Projects

A Sector Specialized in
the Implementation of
Fire Alarm & Firefighting
System projects.

Supply & Delivery

We are committed to
supply & deliver our
products to all our
Clients within KSA &
other Countries as well

Testing & Commissioning

A group of Qualified
Engineers & Technicians
performing Testing &
Commissioning works for
Fire Pumps/ Fire Pump
systems using the latest
Equipment & Devices

Maintenance Services

Periodic Maintenance Contracts
for fire pumps, Electric Motor
servicing, Diesel Engine repairs,
and Fire Protection Systems in
general.

Our Products

Kitchen Hood Fire Protection System

High-performance fire systems for fast Detection and Alarms

Fire ALarm Systems

High-performance fire systems for fast Detection and Alarms

Fire Doors

Durable Fire-Rated Doors providing essential fire resistance capability

Fire Hose Cabinets

Secured cabinets for organized storage of Firefighting Equipment

Portable Fire Extinguishers

for different types of fire (CO₂, Dry Powder, Water & Water Mist, Wet Chemical)

Projects Sector

The Projects Sector Comprise of a Team of Engineering & Technical Staff with Excellent Experience and Competencies who Implements and Maintains Fire Protection System Projects, they Focus on the Project Development and Advancement inline with the Kingdom's Goals and Vision for 2030.

Installation Services

Installation of UL/ Non-UL Fire Pumps for Efficient Emergency Response, along with the Supply & Installation of reliable & technically advanced Fire Alarm & Firefighting Systems.

Maintenance Services

Providing Periodic & Annual Maintenance Contracts for all Type of Projects, Fire Pump, Fire Pump Systems, Firefighting & Fire Alarm Systems Electrical Motor Rewinding & Servicing, as well as Diesel Engine Repairs

Testing Services

Equipped with Advanced Testing and Inspection Devices, in addition to Programming & Maintenance services of Fire Pump Controllers & Fire Alarm Control Panels & accessories.

Projects **Activity**

Supply & Installation of Fire Pumps/ Fire Pump Sets

Periodic & Yearly Maintenance Contracts

Projects **Activity**

Testing and Commissioning

Supply & Installation of Firefighting/ Fire Alarm/ Safety Systems & Acc.
